DETAILED ACTION

1. This Office Action is the answer to the amendment received on 6/08/2004; which paper has been placed of record.
2. Claims 1-31 are pending in this application.

Drawings

3. The drawings were received on 11/22/2000. These drawings are as formal drawings (21 Figures), and they are acceptable for examining purposes.

Response

4. Based on the explanations and reasonable supports in the specification of the applicant, the examiner withdraws enablement rejections 35 USC 112, 1st para.

Please consider the following requirement on multiplicity of claims to make an election (See Federal Register: October 5, 1998, Volume 63, Number 192, e.g., Page 53507).

Restriction/Election

5. Pending claim would be rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention.

Taken as a whole, the pending claims recite an undue multiplicity of dependent claims by virtue of the unreasonable number of claims presented would tend to obfuscate, confuse, and

becloud the claimed invention. Because the examiner strongly believes that twenty-five (25) claims or less are sufficient to properly define applicant 's invention, applicant is required to select certain claims, not to exceed twenty-five for examination , See M.P.E.P. 2173.05(n). To be complete, the non-selected claims must be cancelled or why the above rejection would be in error (for a recent statistic of number of average claims in a single patent application, see Federal Register: October 5, 1998, Volume 63, Number 192, Page 53507).

Applicant is being afforded the courtesy of a written response due to broad and multiplicity characteristics of the claims.
